

RESIDENTIAL

ENGINEERING IS EVERYTHING

Art Michalcheon, our founder of Steel-Craft Door Products Ltd. was a visionary and engineered all of his own tooling to ensure that our doors are made with unparalleled components and superior materials. Today, with our valued employees, patented technology and our state-of-the-art manufacturing facility, we guarantee our continued commitment to excellence. At Steel-Craft engineering and design is everything.

STEEL-CRAFT DOOR PRODUCTS LTD.

MADE IN CANADA FOR CANADA

Since 1963 Steel-Craft has been manufacturing durable garage doors for residential, commercial and industrial applications to complete customer needs. We remain the only door manufacturer in North America able to customize our products to fulfill any of our customer's requirements.

Constructed with 100% Canadian steel, our products are designed to withstand even the most extreme weather conditions.

OUR PARTS DO MORE THAN WORK

At Steel-Craft, we know our customers are particular and we think our doors should be too. Through our engineering process and distinctive designs, we ensure that every component of our doors functions at the highest level of quality. Our parts do more than work. They work to best of their ability.

Don't just hang a door, **Install a Steel-Craft.**

ALL GARAGE DOORS ARE NOT CREATED EQUAL

Our Steel-Craft products are distinctive in appearance, more importantly they are designed and crafted to bring balance and elegance to each and every home.

DESIGNED LIKE NO OTHER

Steel-Craft doors are specially designed and crafted to handle all Canadian weather.

WEATHERLOCK SYSTEM

Our patented system overlaps the interior and exterior skins, locking out the cold, preventing interior heat loss, all the while extending the life of your door.

We use 100% Canadian steel of the highest quality. Completed with several layers of protective coating and finest quality commercial grade paint.

CLIMACORE 100% CFC & HCFC FREE POLYURETHANE INSULATION

Steel-Craft's ClimaCore insulation is specially designed to achieve the highest insulation between the panels, providing the best R-Value, strong and consistent protection from the elements.

THERMO-CRAFT

The Thermo-Craft garage door series, crafted in our classic design, delivers dependable construction and excellent thermal efficiency.

ESTEEM FEATURES

FRAMES

- **Thickness:** 1.8mm/0.071";3mm/0.118"at fastener locations
- **Standard Top/Bottom/End Stiles:** 162mm/6.375"
- **Intermediate Stiles:** 76mm/3.0"

INSULATED ALUMINUM PANEL

1.27 mm thick aluminum sheet material insulated and sealed to door frame

DOOR FACE HARDWARE

- Graduated end hinges and centre hinges made from galvanized steel
- Heavy duty rollers with heat-treated and outer races with 10 floating ball bearings.

TRACKS

50 mm or 75 mm wide galvanized steel tracks.

COUNTERBALANCE SYSTEM

- Class II oil tempered ASTM A229 wire, minimum 10,000 cycle torsion springs on continuous steel shaft
- Aircraft quality galvanized lift cables with a minimum safety factor of 7 to 1

STRUTTING

- Doors over 11 feet in width are reinforced with 16ga galvanized steel "Z" brace per section
- Strutting required for doors wider than 3,353mm

WEATHERSTRIPPING

- **Bottom weatherstripping:** U-type arctic grade vinyl
- **Jamb:** quality factory finished metal with two-point flexible arctic grade vinyl weatherstrip
- **Header:** quality factory finished metal with two-point flexible arctic grade vinyl weatherstrip

TRI-SEAL

- **Reduces Sealant Stress:** Super Spacer's thermoset silicone polymer material expands and contracts and always returns to its original shape.
- **Promotes Sound Absorption:** The closed-cell polymer of Super Spacer transmits very little sound compared to conventional aluminum or less-metal warm edge spacers. We recommend the use of Super Spacer wherever noise from airplanes, trains or automobiles may be a problem for building occupants.
- **Improves Condensation Resistance:** The significantly reduced tendency of Insulated Glazing (IG) units fabricated with Super Spacer to exhibit interior condensation or frosting means that the health problems associated with mold may be virtually eliminated.
- **The No-Metal Advantage:** The edge of an IG unit is the most vulnerable part of the glass to heating and cooling losses, condensation and frosting. Super Spacer contains NO-Metal and is one of the most thermally efficient IG spacers available in the market today.
- **Globally Tested and Proven Performance:** Super Spacer is the world's first polymer, NO-Metal warm edge spacer. Over 1 billion feet of Super Spacer has been used worldwide since the start of production in 1989. The company received the 1994 "Solar Company of the Year" award issued by Solar Energy Society of Canada, Inc. Super Spacer was awarded the DWM Green Product Award in both 2009 and 2010.

THE BEST DOOR WOULD BE YOUR OWN STEEL-CRAFT DOOR.

Select your choice of garage door style, colour or finish, windows and decorative accessories by contacting one of our Steel-Craft Dealers or Distributors.

ALL BACKED BY OUR LIFETIME WARRANTY.

At Steel-Craft, we take pride in our solution-based customer service. While we carefully plan each component of our doors to meet your needs. We know life is full of surprises, that's why we cover all of our doors with a lifetime warranty. Our warranty covers everything from installation to materials, and safeguards against potential cracking, splitting or deterioration due to rust. Even though we don't think you'll need it, our lifetime warranty is at your service.
